### QUEEN'S COLLEGE.

#### ANNUAL PRIZE GIVING.

ADDRESS BY H.E. THE GOVERNOR.

The annual prize-giving in connection with Queen's College took place on Saturday. The awards were distributed by His Excellency the Governor, who was supported on the platform by the Headmaster (Mr. B. Tanner), Sir William Brunyate, the Hon. Mr. Claud Severn, the Director of Education (Mr. E. A. Irving), Mr. E. Ralphs, the Rev. Teedale Mackintosh, and Mr. Eric Rice. The Headmaster (Mr. B. TANNER) presented his report, extracts from which read as follows:—

"The total number of scholars enrolled during the year ending December 31st, 1922 was 799.

"The year was a very fortunate one for the school in that it witnessed an unusually small number of changes in the staff.

"At the end of November we suffered a very serious loss in the resignation of Mr. Cheung Hok-chau, one of the most valuable of our Chinese Assistants, and who was for a number of years largely responsible for the success of our Junior Local classes; he left, with the best wishes of all who had worked with him, to take up a business appointment.

"The discipline of the school has been, as usual, well maintained. Notwithstanding the great reduction in the average age of our boys and the large numbers in most of our classes, an astonishingly small amount of effort is required to keep them under control and hard at work. Two principal causes contribute, perhaps, to this desirable state of affairs. The first and, I think, much the less important is the knowledge the boys have that for any infringement of rule they are very promptly dropped upon. Then, by most Chinese fathers the money expended upon the education of their sons is regarded as an investment for which they expect an adequate return; this being so, and in view of the great competition existing to gain admission to the school, our boys are very keen to keep their places and in most cases show a settled determination to benefit as much as possible from the means of education provided for them. Beneath all this lies, of course, the deep-seated respect the Chinese have always had for learning and for those by whom they are well taught and governed.

The health of the school was, on the whole, better than usual. Dr. Ealer examined all new boys enrolled during the year, and those recommended by him for treatment received attention from Dr. Morrison; of these latter, 64 were supplied with spectacles by Messrs. Lazarus. To the medical staff of the Alice Memorial Hospital, just below us in Aberdeen Street, I wish to express our gratitude for their prompt attention to casualties and for their kindness in reporting upon boys suffering from slight ailments who are often sent to them.

"In the class-rooms a year of steady work has been put in, and although we are never quite satisfied with examination results I feel that the work itself may be justly described as satisfactory. The University Matriculation and Junior Local Examinations have taken the place respectively of our annual Class I and Class II examinations. In November, a total of 37 boys from our senior class sat for the University examinations, 32 taking the Matriculation papers and 5 the Senior Local; of these, 17 boys qualified for Matriculation while 7 were awarded a Senior Local pass and 13 failed. Our star student and head prefect, Lo Tung-fan, was awarded Matriculation Honours with distinction in English, Geography and Trigonometry; he was also the winner of the President of China Scholarship. The whole of our Class 2 boys, forming 4 divisions and numbering 37, as against 56 last year, sat for the Junior Local examination and of these 63 passed and gained 30 distinctions, while 34 failed. Although these results are not nearly so gratifying as were those of our last year's Juniors, it is much better that the standard should be raised here and boys kept back who are unfit for promotion to the Matriculation or Senior Local classes. We admit no boy to either of these classes until he has passed his Junior Local examination. In previous years we have always been awarded a number of distinctions in Chinese; this year we did not obtain any, and in looking through the list of results issued by the University I notice that not a single distinction in Chinese was gained by a Hongkong student taking the November examinations. It will be interesting to discover if this is the result of an all-round falling off in the quality of the work, or of the adoption by the University examiners of more drastic methods of dealing with marks.

"I am pleased to say that in February we were able to begin work in our newly-fitted Chemistry worked through by the two Junior Local divisions on the "Matriculation" side, whether judged by the actual work done or by results in the University examination, was highly satisfactory.

"Games continue to be increasingly popular, and football, volleyball, basketball, tennis, cricket, swimming, running and boxing—each under the direction and control of a specially interested master—all possess a keenly enthusiastic following. In competitive sports we did only fairly well, except in team work, where we succeeded in winning all the races, with the exception of one, we entered for both on land and in the water. In tennis, too, our League players gave quite a good account of themselves. As usual, the inter-class series of games in football and volleyball competitions aroused great enthusiasm and were very keenly contested. No fewer than 44 teams (23 football and 21 volleyball) took part in these games—every section in the school being represented by a team, and after some very close and exciting tussles both shields were finally won by Commercial 3A, the walls of whose class-room they now help to adorn. The lower school gymnasium for physical drill, gymnastics and swimming. Our boxing instructor, the well-known Sergeant "Kid" Marriott, still instructs twice a week in his particular form of the "noble art," while for Chinese boxing an instructor is provided by the Chinese Boxing Association. Both classes have given several interesting exhibitions during the year.

"Altogether, the year under review may, I think, be set down as a prosperous and satisfactory one for the school. All our social organisations are very vigorously alive and continue to play an important part in the existence of the school. The Old Boys' Association dinner in April was a great success as was also the Amateurs' dinner in March, and our Amateur Dramatic Association gave performances in aid of the Swatow Typhoon Relief Fund which enabled us to contribute a sum of \$1,270. To the members of the Old Boys' Association we are grateful for numerous sports prizes and to our Old Boy in particular for having again provided special prizes for Vernacular Composition and for competition in Class 8.

H.E. THE GOVERNOR, in the course of a short address, remarked that the school had evidently had a very successful year, and Mr. Tanner was to be congratulated. There was nothing in the report to invite comment, but he took the opportunity to say that the Director of Education had drawn his attention to the difficulty which they, in common with many other schools, had experienced owing to boys leaving school before the completion of the term. This made things inconvenient for the staff and bad for the boys themselves. The problem was a difficult one, but he hoped some means would be found of getting over it. Another point that the Director of Education had made was the growing habit of boys leaving school directly after they had passed the junior local examinations. It was easy to understand that the lads would be greatly tempted to leave so that they might earn some money as soon as they had the qualifications. As to this, the Headmaster had stated in his report that "education is considered by the Chinese as an investment." If that were so they should see that it was a mistake to realise an investment before they were sure it would yield a profit. He hoped in the future he would see more boys taking their seats for the senior local and matriculation classes, and going to the University. The only other thing he wished to remark on was Mr. Tanner's reference to sport. They had done fairly well at sport generally, but not as regards team work. He would like to see them winning more competitions in which team work counted so that they could learn to work together.

His Excellency then presented the prizes. Among the winners were the following: Matriculation Honours—Lo Tung-fan (with 3 distinctions). Junior Local Distinctions.—(Two or more): Ching Hing-chow (3), Lu Tak-lam (3), Ho Ka-ming (2), Lai Fung-kwan (3), Ho Ka-chun (2), Fung Kai-sui (2), Chan Yik-hi (2). Arculi Composition Prize.—(Cl. 1), Tong Wing-keung.

The report of the annual prize-givings of the St. Stephen's College and the Ying Wa College are unavoidably held over till our next issue.

### ORDER OF THE BRITISH EMPIRE.

#### NUMBERS LIMITED.

Important changes in the Statutes of the Order of the British Empire\* were gazetted, on December 29th. Hitherto no limit has been set to the numbers of persons who might be appointed to the Order. Maximum numbers are now prescribed for each of the five classes of the Order, as follows:— G.B.E. (Knights and Dames Grand Cross).—Military Division, 18; Civil Division, 80 (30 for home services and 50 for Dominion or foreign services). K.B.E. and D.B.E. (Knights and Dames Commanders).—Military Division, 30; Civil Division, 180 (90 for home services and 90 for Dominion or foreign services). C.B.E. (Commanders).—Military Division, 140; Civil Division, 720 (360 for home services and 360 for Dominion or foreign services). O.B.E. (Officers).—Military Division, not more than 49 appointments to be made in any year; Civil Division, not more than 180 appointments in any year (80 for home services and 100 for Dominion or foreign services). M.B.E. (Members).—Military Division, not more than 68 appointments to be made in any year; Civil Division, not more than 240 appointments in any year (120 for home services and 120 for Dominion or foreign services).

In the case of the Military Division of each class of the Order the numbers to be appointed on the recommendation of various Ministers are definitely set out. Those already belonging to the Order are not to be included within the numbers now allotted to each class. Members of the Indian Army are eligible for admission to the Military Division in each class of the Order.

"In the introduction to Burke's Handbook to the Order of the British Empire, published in March, 1921, it is stated that the total membership of the Order at the time was 25,419 (11,946 military and 13,473 civil), made up as follows:—G.B.E., 84; K.B.E. and D.B.E., 537; C.B.E., 3,173; O.B.E., 11,268; and M.B.E., 10,242.

## GENERAL NGAI BONG PING.

HIS OWN STORY OF HIS DETENTION  
KWANGSI OFFICERS MISTAKEN FOR NGAI ARE  
SHOT DOWN.

As there have been many reports coloured to suit various interests concerning the detention and final release of General Ngai Bong Ping and as many of his friends, both Chinese and foreign, are desirous to know the facts of this affair, General Ngai granted an interview to a representative of the *Canton Times* and the following statement by General Ngai is published by our contemporary:

On January 20th, I was invited by the Yunnan General Yang Hi Man and the Kwangsi General Lau Cheng Wan to attend a meeting at the River Defence Headquarters at 4 p.m. The objects of the meeting were to discuss—(1) a continuance of the attack on General Chen Chung Ming and (2) a settlement of the affairs of the city. Those present at the meeting were Civil Governor Hu Han Min, General Chau Lu, Commander Chan Chak, Admiral Wen Shi-tak's representative, General Yang Hi Man's staff officer, General Lau Tak Hin, Commander Wong Heung Yau, Commander Li Yik Piao, Commander Mak Sing Fong, Commander Chan Ting Tai and four other military officers unknown to me. Some of these were not invited but had been ordered by Kwangsi General Sun Hung Yin to attend. General Sun was not present.

WHY GENERAL SUN WAS NOT PRESENT.

Prior to the meeting General Sun had wished to attack the 3rd Division on under my command, on the ground that he suspected that this division was hostile and might launch an attack on him. He communicated his suspicions to General Yang Hi Man with the object of inducing the latter to join him in a plan of attack against the 3rd division. General Yang was not acquainted with Kwangsi affairs when he first arrived at Canton, but felt that General Sun, who had previously been in Kwangtung for some years, knew local conditions well. Hence when General Sun informed him that General Chen Chung-min and I would combine our forces to attack them, General Yang was half inclined to believe General Sun, but he cautioned the latter not to attack Honam lest the city would be involved in ruin. In order to settle the question whether the 3rd division was friendly or not, General Yang told General Sun that there was to be a meeting on the following day where this subject could be brought forward for discussion. "If we find out at the meeting that the 3rd division is hostile to us, we can all make preparations on whatever plan that may be decided. If we find, however, that our suspicions are unfounded and that there has been a misunderstanding, then we can put the matter aside." These were the words General Yang said to General Sun. Hearing this, General Sun was afraid that those at the meeting would not support him, and on returning to his quarters, he instructed ten of his officers to fully arm themselves and attend the meeting.

WHAT HAPPENED AT THE MEETING.

Outside the River Defence Headquarters a number of troops were on guard at the time appointed for the meeting. When the parties gathered at the meeting, the subject brought up for discussion was not that of the programme as introduced by the chairman General Lau Cheng Wan.

General Lau Tak Hin, Commander Li Yik Piao and Commander Wong Heung Yau began immediately to insult and taunt General Chau Lu and Civil Governor Hu Han Min, and openly upbraided them for their disappointments in coming to Canton and finding no money or quarters prepared for their accommodation. After this they left their seats, and General Li Yik Piao gave the signal *Let us go*, and immediately Commander Mak Sing Fong seized me from behind, and at the same time four or five others covered me with their guns and dragged me to the floor. One of them fired at me, but the shot passed just over my head as I was being dragged to the floor. I then caught hold of my opponents and we rolled on the floor. One of my bodyguards rushed to my assistance and received the shot that was intended for me. A regular commotion was then started and the troops in the compound below commenced firing into the room, while those on the street, fired into the compound. Shots were heard above the din "Don't fire." As I got up two soldiers continued to cover me with their guns and ordered me to the next room where they offered me a chair. General Lau Tak Hin followed me with a gun with the intention to shoot me, but four Yunnan soldiers and a petty officer had been killed, and the Yunnan men, exasperated by this, threatened to interfere and drive out those guilty of the fracas; hence, General Lau Tak Hin did not care to fire at me. Later on General Yang Hi Man having heard of this affair immediately sent an order to his Colonel demanding who was responsible for the shooting, and also at the same time to see that I was protected from all danger. General Lau Tak Hin saw this order, and he and Commander Wong Heung Yau left the premises presumably to go to the Government Mint where General Sun had his headquarters. But no sooner had they departed by motor car, than the report of firing was heard in the streets, and it was reported to me that as General Lau Tak Hin was

(Continued at foot of next column.)

THE COMIC OPERA SEASON.  
SPLENDID WELCOME TO AN  
EXCELLENT COMPANY.

When the J. C. Williamson Co., Ltd., opened their Comic Opera season at the Theatre Royal on Saturday evening with Gilbert and Sullivan's ever-popular opera "The Gondoliers" they had the satisfaction of facing a house crowded in every part—an audience that the Company kept delighted from beginning to end. If the comic operas of Gilbert and Sullivan are in themselves a powerful attraction, the knowledge that they are being performed by an excellent company will certainly materially help to ensure full houses for every night of the season. It was evident that the large audience on Saturday night were immensely pleased with the presentation of "The Gondoliers." Every member of the cast seemed to admirably fit the parts assigned to them. Without exception the leading players had pleasing voices and the familiar old songs and the choruses were rendered in a manner that well merited the applause the audience unstintingly gave to them.

A shadow of disappointment came over the house, when, just before the start of the opera, it was announced that the "star" of the Company—Mr. Chas. Workman—who was to have appeared in the important role of the Duke of Plaza-Toro had met with an accident to his foot and would be unable to appear that evening. "Relief, however, came before Mr. Kierston (Mr. Workman's understudy for the part) had been many moments on the stage, for he gave instant proof of his ability to interpret the part in a manner that promised entire satisfaction, and at the end we doubt if anyone in the audience could have felt that Mr. Kierston's acting of this vitally important part left very much to be desired. Equally delightful was the acting of Mr. Victor Prince as the dignified but highly amusing Grand Inquisitor and it should be said that both Mr. Kierston and Mr. Prince, who have excellent voices, sang the delightful old songs associated with their respective parts in a style that left no possible shadow of a doubt, no possible doubt whatever, that they were well cast for their respective parts. Mr. Charles Mattam and Mr. John Ralston appeared as the two gondoliers who figure so prominently throughout the play. Mrs. Christina Lorimer was the Duchess of Plaza-Toro, Miss Grace Crotty took the part of Casilda (her daughter), and Mr. Roy Workman, that of Luiz, the Duke's attendant, who ultimately turns out to be the Prince of Barratara, and the husband of Casilda. Miss Elele Coram and Miss Byal Walkley, who become the brides of the gondoliers, must also be mentioned as distinguishing themselves by their charming acting and singing. The Italian peasant women and Venetian gondoliers made a very picturesque group on the stage and their dancing and singing gave great pleasure. It is rare indeed that the Far East has been visited by a company of such all round excellence, and a good word must not be omitted for the orchestra which admirably rendered the tuneful music of the opera.

To-night the Company give "Trial by Jury" and the "H.M.S. Pinafore."

passing his own quarters his troops mistook him for some one else and fired into the motor car, killing all of the occupants. Later while standing on the veranda I saw Kwangsi soldiers massing outside the gates, shouting instead of killing me they had accidentally killed their own commanders, and demanded to have me surrendered to them, showing at the same time a fighting attitude. I then went in and asked the Yunnan Colonel to transfer me to General Yang Hi Man's headquarters.

GENERAL SUN DEMANDS GENERAL NGAI'S DEATH.

The following day General Yang Hi Man sent an order to have me transferred to his quarters, General Yang accorded me every courtesy and attention to my comforts during all the time that I was under his protection.

In the meantime General Yang received many reports from and had interviews with different bodies representing various guilds. He had also telegrams from Dr. Sun Yat Sen and Hsun Tsuen Sen, and gradually he became more acquainted with the conditions in Kwangtung, which led him to appreciate the difficulties of the present situation. During my detention General Sun Hung Yin either personally or by his representative went on four consecutive days to demand of General Yang either to surrender me to them or to have me shot, but if General Yang either should release me, then General Sun would adopt retaliatory steps against him. Each time General Yang managed to pacify them, as he was placed in a difficult position, for on the one hand he was determined to protect me and on the other he had to prepare against any eventualities with General Sun. And not until his preparations were completed was General Yang able to invite on last Wednesday, February 6th, at noon, delegates from various societies, as well as some foreign representatives to witness my release.

I feel it my duty to express my heartfelt thanks to my many Chinese and foreign friends who endeavoured to help me, but were prevented by General Sun Hung Yin from having their wishes carried out.

## INTERPORT GAME.

HONGKONG v. H.M.S. "HAWKINS."

The game was played on the Club ground in the presence of a good attendance and ended in a win for Hongkong by four goals to nil.

The opening play went in favour of the *Hawkins*, but erratic shooting kept the game safe. The sailors were without Osborne and Warner, their places being filled by Haynes and Frost respectively. Hongkong did not settle down to their game in the first ten minutes and the play was scrappy during that time. The first goal came from the left wing for Chan put Valentine in possession in front of an open goal and the Club man steadily himself placed the ball with a slow ground shot into the corner of the net, Hooper having no chance to save. The *Hawkins* took up the attack on the right and Barkham easily beat Chan So, but failed with his final attempt. The Hongkong team then played up with more confidence, Hudson and Stewart keeping their forwards together. Following good play on the left wing Hongkong forced a corner and from the flag kick the ball was coming to the head of Forsyth when Adkins knocked it clear with his hands and a penalty against the *Hawkins* was awarded. Forsyth was entrusted with the kick and beat Hooper, putting Hongkong two up. Even play followed during which time Sawyer was injured, but remained on the field. Hooper was called upon to save his charge which he did successfully until the interval, which found the sailors two down.

From the restart the Hongkong team put plenty of life into the game and for a time the *Hawkins* were on the defensive. Good play by Chu Kwong Yeung on the right wing led up to the third goal, for the winger beat all opposition and put the ball in front of goal enabling Begs to put on the finishing touch and send it past Hooper. The sailors greatly handicapped through the injury to Sawyer, played up well and Swan saved a couple of shots from Hynds, but most of the shots at goal went wide of the mark. Barkham was a great threat to the defence and had two men watching him throughout the game. On one occasion he turned the ball to Swan from very close range from a pass by Imeson; the goalkeeper saving well. The fourth goal followed sending in a very fast shot which Hooper just reached but pushed it against the net inside the posts. Several shots from Hongkong forwards hit the posts and crossbar and then rebounded to play. Just on time Swan was called upon to stop the hardest shot of the game, directed by Hynds from close range, and the interport goalkeeper received applause for his brilliant save. The final whistle left Hongkong winners as above.

The forwards on the whole showed good combination but they are out of shooting practice. The wings have a fine turn of speed but Chan on the left has better control over the ball than his club mate on the right wing. Both players seem to be at fault with the ball in the air for their attempts to head the ball often failed. The halves are a good set but Leung Yuk Tong has a tendency to play behind Chan So, leaving the opposing wing too open. Stewart, after a shaky opening, settled down to good football. Hudson played a hard game and had several shots at goal. The backs put in some big kicking which was not good football as in several instances the ball was sent to the opposing backs who had a free kick. Swan had little to do, but dealt with the shots successfully.

With a few minutes' shooting practice each evening before the actual match, Hongkong will give the Shanghai players a good game. The team will be out on the Club ground each evening during the coming week and it is expected that a good number of supporters will be present to witness the practices.

## "HAWKINS" RES. v. ST. JOSEPH'S.

Playing on the Navy "A" ground the *Hawkins* got another step towards winning the division championship. The College only had ten men present when the game started, but they took up the attack from the kick off and Ogley headed the ball over the bar from a good position. Corners fell to both teams, but they were fruitless. The College were playing the better football, but the bustling game of the *Hawkins* kept them from scoring. Rahmin got away several times on the wing but failed to centre, and his shots went behind. Wellman scored for the sailors before the interval. They were a goal to the good on change of end. The opening minutes of the second half were in favour of St. Joseph's and they should have levelled up. Before the close Hewitt scored for the sailors who won by two goals to nil.

## "DURBAN" RES. v. SOUTH CHINA "A."

On St. Joseph's ground the sailors won by three goals to nil. The sailors pressed throughout the first half and Dickson opened the score. Shortly afterwards the sailors were awarded a penalty and Thomas scored. After the change of ends Cann got through for the *Durban* who won as above.

## UNITED v. KOWLOON.

Playing at home United won by the odd goal in three. Brown scored for the United before the interval, and Chubb for United and Duncan for Kowloon after the change of ends.

## UNIVERSITY v. POLICE.

On the Club ground the University had a lead of four goals to nil at the interval. After the change of ends they put on two more goals and the Police scoring once the University won by six goals to one. For the University Wing Tuk scored four goals, Laing 1 and Li Boon Yu 1. Dudley scored for the Police.

## "TITANIA" v. AUXILIARIES.

Crossing over on the Navy "B" ground with a blank score sheet this game ended in a win for the *Titanic* by two goals to nil. Haylock of the Auxiliaries put through his own goal and Wigginton scored the second goal. Gale missed a penalty.

## SOUTH CHINA "B" v. "AMBROSE."

Playing at Sookunpoo the "B" team won by five goals to one.

## KING'S v. "TITANIA"

Playing at Sookunpoo in their return match in the Hongkong League on Friday evening the King's beat the *Titanic* by two goals to nil.

The sailors were without Emery and Rogers, Duval and Kirby turning out in their places. The first half was very evenly contested, each goalie being frequently called upon. Following a corner kick Phillips left his goal to clear and was beaten, but Hart sent the ball wide with the goalkeeper ten yards out. Blacoe saved from Grice and, the King's going down, Jones was stopped for off side. A shot from Duval almost scored, Blacoe just tipping over the bar with one hand. Half time, no score. From the restart the King's went down and put the ball straight in the net, Phillips having no chance with a shot from Hart at close range. The King's continued to have the most of the game, but their shooting was erratic. Williams cleared and sent out to Scott who centered and Jones, trapping the ball, ran round Lanning and beat Phillips, making the score two to nil in favour of the King's. Stocks had a chance but with only Blacoe to beat stumbled over the ball which rolled behind. Corners were frequent but the ball was badly placed. Each goal had narrow escapes and on one occasion Blacoe just turned the ball round the post as Duval landed in the net. The sailors tried hard to pull the game round but time defeated them and the final whistle left the King's winners as above.

By this win the King's have a lead of six points in the league their nearest opponents being the Ambrose.

The teams:—  
King's.—Blacoe; Wynne and Williams; Newton, Hodgson and Barlow; Williams, Hart, Lieut. Jones, Dyer and Scott.

H.M.S. *Titanic*.—Phillips; McGarrigle and Lanning; Bradshaw, Weedon and Bone.

Referee: Mr. Garton.

## BILLIARDS.

## TO-NIGHT'S CHAMPIONSHIP GAME.

To-night's game at the V.R.C. timed to start at 9 o'clock, should be particularly interesting as Mr. F. W. Kwok, who meets Mr. A. J. Osmond, is in great form. In a trial match on Saturday Mr. Kwok made a break of 102.

## WHAT IS EYESTRAIN?

The eye has certain tiny muscles. When objects we look at do not come up to a sharp focus in the eye, these muscles exert themselves unduly and enable us to see clearly in spite of the defect. These muscles tire and relax causing the objects looked at to become blurred and indistinct. Upon closing the eyes for a few seconds the muscles become more or less rested and objects are clear again for a brief period. Properly fitted glasses correct eyestrain, whether caused by astigmatism or age. The Hongkong Optical Co., successors to Clark & Co., Manufacturing and Refracting Opticians, 53, Queen's Road Central, have the equipment to fit your glasses properly.—Advrt.

### CIVIL SERVICE v. UNIVERSITY.

In a first league match played on Saturday afternoon the University first eleven defeated the Civil Service first eleven by 12 runs, after a very close and exciting game. Going in first the University were all out for 133, the principal scorers for the side being Yeoh and the Rev. E. Quick, who scored 31 and 37 respectively. Baker secured four of the University wickets for 23 runs. The Civil Service replied with 121 runs, Baker again meeting with success with the bat. His contribution was 43. A. A. Rumjahn secured seven of Civil Service wickets for 35 runs.

### SECOND LEAGUE.

### UNIVERSITY v. CIVIL SERVICE.

On Saturday the Civil Service Cricket Club defeated the University second eleven in a second league match by 30 runs. Batting first, the Civil Service made 191 runs. E. Dunkley had the highest score for his side with 68 runs. O. Sara and W. Watson also contributed useful scores to their side with 33 and 30 respectively. The University replied with 161 runs, of which 89 were contributed by Lam. His effort included 18 fours. Taylor, bowling for the Civil Service, secured six wickets for 79.

### R.E. v. I.R.C. 2ND XI.

Playing at Happy Valley, the Indian 2nd XI defeated the Royal Engineers comfortably by 3 wickets and 60 runs. Batting first, on a matting wicket, the Indians compiled 152 for the loss of 7 wickets and then declared. D. and H. D. Rumjahn and J. Ackber being the principal contributors with 57, 25 and 31 not out respectively. The Home side could not get going and were dismissed for 92. Thanks to Chippendale's 42, who had three lives given him in his innings, all off H. D. Rumjahn's bowling, saved the side from a severe defeat. Arculli and Redpath were the successful trundlers for their respective sides. The former secured 6 for 28 and the latter 3 for 27.

### 11 FRIENDLY MATCHES.

### CHINESE RECREATION CLUB v. POLICE.

The Chinese Recreation Club defeated the Police in a friendly match on Saturday by 34 runs. Going in first the Chinese knocked up 105 runs, the greater portion of which was contributed by the first three wickets, C. Choa having the highest score for his side with 36. Earnshaw, the Police bowler, had some success with the ball, taking six wickets for 61 runs.

The Police replied with 71 runs, only two of the players, C. Alexander and N. J. Watts, reaching double figures.

## THE ROYAL HONGKONG YACHT CLUB. NEW BOWLING GREEN OPENED. SUCCESSFUL FUNCTION AT THE YACHTING CLUB.

It was indeed fitting that Mr. and Mrs. F. Smyth should be revisiting the Colony and thus be enabled to attend the opening of the new bowls lawn at the Royal Hongkong Yacht Club on Saturday afternoon, for it is through the generosity of Mr. Smyth, who for several years held the position of Commodore of the Club, that the bowling lawn has been added to the amenities of the Club. To Mrs. Smyth fell the honour of presenting the prizes won in the sailing races on Saturday afternoon organised to celebrate the opening event. To further the interests of the new bowls section it should be added that Mrs. Smyth has promised the Club the first challenge cup which is to be competed for annually, or as thought best by the Bowls Section Committee.

For the opening ceremony the Club House was gallily bedecked with flags whilst a number of the cruising yachts belonging to members dressed ship and anchored inside the Basin off the Club House. The band of the H.M.S. *Hawkins*, by kind permission of the Commander-in-Chief, was present during the proceedings and played a number of delightful selections.

Commodore A. R. Lowe and Mrs. Lowe were at home during the afternoon to the Officers of the Royal Navy and their wives, and as a result of this the Senior Service was well represented at the function. His Excellency the Commander-in-Chief (Sir Arthur Leveson K.C.M.G.) and Commodore H.E. Grace, R.N., being amongst those present. His Excellency the Governor (Sir R. E. Stubbs, K.C.M.G.), and the Hon. Mr. Claud Severn, C.M.G., were also present.

Whilst the yacht racing was in progress the first game of bowls on the new green was played. His Excellency the Governor commencing the game by playing the jack. Two rinks of players were formed in which His Excellency the Governor, the Commander-in-Chief and the Hon. Mr. Claud Severn took part. The opinion of a number of experienced lawn bowls players, who were present, was that the lawn is quite a good one and it "only needs playing into form."

During the afternoon tea was served on the lawn.

At the conclusion of the afternoon's sport the Commodore (Mr. A. R. Lowe), in asking Mrs. Smyth to present the prizes, said:—The occasion of Mr. and Mrs. Frank Smyth's short stay in the Colony has been seized to celebrate the completion of the bowling lawn which, through the generosity of Mr. Smyth, has been added to the amenities of this Club. As most of those who are with us to-day are well aware, the Royal Hongkong Yacht Club owes a great deal to Mr. Smyth who was Commodore for several years and has done us many a good turn. Our appreciation of this latest gift is shown by the fact that already a large number of members of the Club have enrolled themselves in the Lawn Bowls Section and Mr. Smyth may be sure that the lawn will soon be "played in," which I am told is what it requires at the present moment.—(Applause.) Anyway, it is the nearest approach to Plymouth Hoe to which we can get. It is a very great pleasure to have with us to-day His Excellency the Governor, the Commander-in-Chief of the China Station, also Commodore Grace and family. Sir Arthur Leveson and the Commodore are both keen yachtsmen which makes them all the more welcome at an affair of this kind. This has been, I may say, quite a naval occasion. Our friends in the Navy are getting so habituated, these days, to oil fuel and machinery that I am sure they must quite enjoy having a tiller and sheet in their hands once again. At any rate, I am sure you will join with me in extending them a hearty welcome.

Regarding the racing to-day the breeze has enabled the boats to make fast times and there have been some very close finishes. We hope this will be the forerunner of many happy meetings with our friends of the Navy. I should like to say, in conclusion, that our thanks are due to those gentlemen who have made the arrangements for this afternoon, particularly the Vice-Commodore, Mr. D. K. Blair, who has presented the prizes, and Mr. D. L. Ralph, whose superintendence of the arrangements for our enjoyment I am sure you will agree have been crowned with success. I now have much pleasure in asking Mrs. Smyth to distribute the prizes.—(Applause.)

Mrs. Smyth then presented the prizes to the winners and at the conclusion she was presented with a beautiful bouquet of flowers by little Miss Arthur, who in turn was the recipient of a large box of chocolates done up with ribbon of the Yacht Club's colours.

(Continued at foot of next column.)

## MARINE COURT. THE "KONG NING'S" ENGINEERS. DESTRUCTION CHARGE DISMISSED.

The case in which the third and fourth engineers of the motor ship *Kong Ning* were charged with destruction, and also with doing wilful damage to the ship's engines was concluded at the Marine Court before Commander Beckwith, R.N., on Saturday.

Mr. Nash represented the owner (Mr. G. Banker), and Mr. Deans defended. It was stated that the second engineer who had also absconded had not yet been arrested.

The two defendants gave their own story of the alleged destruction. They said that on the day on which they were supposed to have deserted they thought they were going to sail as usual. The chief engineer called them up on deck in the afternoon and told them a new set of engineers had been engaged, and they would be paid off. They drew their money from the second engineer, who had received it, with his own, from the commander, and left the ship, thinking they had been discharged. They knew nothing of the damage to the engines.

The commander was called and admitted "paying the second engineer. He said, however, that he thought it was only provision money.

His Worship took into account the fact that the two men had been in prison for a week, and discharged them, remarking that he had had no direct evidence that they had tampered with the engines. He thought that the second engineer should be arrested if possible.

Mr. SMYTH said the charm of visiting Hongkong once more had been enhanced by the pleasure the Royal Hongkong Yacht Club had given in asking Mrs. Smyth and himself to take part in the opening function of the new bowling green, and especially by the invitation to Mrs. Smyth to present the prizes. He thanked the Commodore for all his kind words in regard to himself and said it was nice to feel that one's efforts had not only been successful but appreciated. However, had it not been for the co-operation of the members in this connection—particularly his friends Mr. D. K. Blair, Mr. E. W. Carpenter and Mr. T. G. Brayfield, to say nothing of Ah Mo, who in his own sphere was a valuable asset to the Club—very little of the work for which they give him credit would have been accomplished. That the new bowling green would be a success he had no doubt whatever, and in this connection he hoped to see the Royal Hongkong Yacht Club Bowling Section not only hold its own in local matches but striving in due time for Interport honours. To further the interests of the new section Mrs. Smyth had asked him to say that she would be delighted to provide the first bowls challenge cup to be competed for annually, or as thought best, in the discretion of the Committee. Mr. Smyth paid a special tribute to His Excellency the Governor through whose kindly efforts, he said, the ground was granted to the Club. He trusted that His Excellency's kindly interest and helpful support would continue. It only remained for him to thank the gathering once more, to congratulate the members on their successful day's sport, and to wish every success to the new Bowling Green Section.—(Applause.)

## THE PRIZE LIST.

Bowls.—No. 1 Rink: Messrs. L. Gay (skip), W. C. Shinner, J. W. C. Bonner and T. W. Carpenter. No. 2 Rink: Mr. W. Russell (skip), the Hon. Mr. Claud Severn, Messrs. D. K. Blair and A. Murdoch.

## COMPANY MEETINGS. CHINA PROVIDENT LOAN AND MORTGAGE COMPANY, LTD.

The twenty-sixth ordinary general meeting of shareholders of the China Provident Loan and Mortgage Company, Ltd., was held at St. George's Building, No. 6, Connaught Road, on Saturday morning. Mr. R. G. Shawan presided and there were also present Rev. Father H. Sauvey, Messrs. H. P. White and T. G. Weall (Consulting Committee), E. M. da Rocha (secretary), and the following shareholders:—H. A. Lammett, E. S. Ellis, A. A. Alves, F. F. Ellis, H. H. Taylor, A. A. Cordeiro, A. P. Samy, G. P. Lammett, K. O'Dell, W. J. Carroll, M. A. Figueiredo, G. H. Underwood, Tong Hok Ting, Poon I. Cho, W. G. Hawker and R. O. Benson (shareholders).

The CHAIRMAN said:—Gentlemen,—With your permission we will take the report and accounts for 1927 which have been in your hands for some time, as read. The net profit on our ordinary working for the year amounts to \$270,490.50, as against \$180,421.52 last year—an improvement of nearly \$100,000 due entirely to the new godowns we acquired last year. With the addition of \$9,875.12 brought forward from previous account, there is left for distribution \$263,165.74 out of which we propose to pay a dividend of \$1.25 per share, absorbing \$212,500 put \$90,000 to reserve fund bringing it up to \$350,000, place \$25,000 to the credit of an equalisation of dividend account, pay a bonus to staff of \$3,033 and carry forward \$2,632.74. We trust that this distribution will meet with your approval. We have been approached by some shareholders as to paying interim dividends and we see no great objection to doing this provided of course we can do so with safety. You will see from the balance sheet that we have very considerably increased your holdings of godown property and the present one justifies our policy, but, of course, as we only came into possession of some of the new godowns in the latter part of the year we have not had anything like the full benefit of their work. Godowns in Inland Lot 205, is that purchased from Messrs. Shewan, Tomes & Co. It has been working for seven months and we are pleased with the result. Land in the neighbourhood of this godown has gone up greatly in value since we acquired this property and we have had several enquiries for it from intending buyers but, except for a tempting price, we are not inclined to let it go. Those on Marine Lot 252 we have had for six months and those on Marine Lot 180 for only four months, so it is obvious that our profits for last year, although they show an increase, are by no means a criterion of what we shall do when we have all these godowns in full swing. Properties on Marine Lots 181 and 182 and Marine Lots 177, 178 and 179 on which only Bargain Money has been paid are not yet taken over by us. One block is in fact only in course of construction. It will be of reinforced concrete throughout and will be a very valuable addition to our assets, but we doubt if the buildings will be completed before the middle of the year. It was purchased for \$600,000 and the property on Marine Lots 173, 178 and 179 for \$673,630. These purchases will enable us at last to dispense with all our hired godowns, which are distasteful and inconveniently separated from each other, and concentrate in one quarter. But all these purchases have entailed an increased expenditure, and our overdraft, as you will observe, was nearly 13 lakhs on 31st December last. In consequence our payments for interest have risen amounting to \$78,167.00 which amount is included in the item in profit and loss of \$66,572.16 for interest and commission. Our properties command valuable water frontages and, on this point negotiations are now in progress between the Authorities and ourselves regarding the erection of piers which will facilitate the handling of cargo and prove a useful adjunct to our general godown business. In the light of the Colony's experience last year with labour, the question of piers at West Point has become important.

As regards our prospects for the present year, I have given you the figures which justify us looking forward hopefully and I do not think I need say more now but that we have begun it all and that all our purchases are at prices that could not be repeated to-day. Our small investment in War Loan shows a profit and as it was not made for business purposes, I think it might now be realised. You will observe that we gave a donation of \$1,000 to the Swatow Relief Fund and I have no doubt our action will meet with your cordial approval. In accordance with resolutions passed on 26th April and 20th May last year the capital of the Company was increased from \$1,250,000 to \$1,700,000. Before moving the adoption of the Report and Accounts I shall be pleased to answer any questions from Shareholders.

The Rev. Father Sauvey seconded the adoption of the report and balance sheet which was carried unanimously. On the motion of Mr. G. H. Underwood, seconded by Mrs. A. A. Cordeiro, Messrs. H. P. White, U. P. On, T. G. Weall and Rev. Father Sauvey were re-elected to the Consulting Committee.

Mr. H. P. White proposed and Mr. M. A. Figueiredo seconded the re-election of Messrs. Linstead and Davis and Percy Smith, both and being as auditors for the ensuing year at a salary of \$750 each. This was carried unanimously.

This was all the business before the meeting.

## HUMPHREYS ESTATE AND FINANCE COMPANY, LIMITED.

The ordinary annual general meeting of shareholders of the Humphreys Estate and Finance Co., Ltd., was held at the Hongkong Hotel, on Saturday morning. Mr. Henry Humphreys presided and there were also present: Messrs. A. O. Lang, J. Scott, Harston, J. M. Alves, W. L. Pattenden and the Rev. Father Robert (Directors), Mr. G. Rapp (Secretary), and the following shareholders: Messrs. M. Fernandez, A. P. Samy, D. E. Clark, A. S. Ellis, M. S. Northcott, J. Hennessey, Seth, J. D. Humphreys, E. Ellis, Wong Sin, W. J. Carroll and F. P. V. Soares.

The CHAIRMAN said:—Gentlemen,—The report and statement of accounts with auditor's report having been in your hands for the past ten days, I will, with your permission, take them as read. The net profit for the year is \$330,262.18 as against \$184,314.99 for the preceding year. This increase in profits, as you will see, is mainly due to profit on sales of property, which amounted for the year under review to \$241,127.97 as against \$85,356.57 for 1921. Rents account is \$11,945.89 better, due to the completion during the year of 6 houses in Minden Avenue and 12 Flats above May Road. Rent for these was, however, only received for a few months in the latter part of the year so that a further rise in our rental income may be expected during the current year. You will notice in the assets that mortgages to the Company are considerably less, the mortgage on the property at West Point having been paid off in May last. Mortgages by the Company are also reduced. The only other item in the accounts which I think calls for special comment is the item "Shares in Public Company at cost." This represents the first call of \$2.50 a share on 1,000 shares in the Hongkong Engineering and Construction Company. I trust the proposed distribution of profits will meet your approval. I have no further remarks to make, gentlemen, and now propose that the report and statement of accounts as presented be adopted. After this has been seconded I shall be pleased to answer to the best of my ability any questions shareholders may wish to ask.

Mr. J. HENNESSY, SEH seconded the adoption of the report which was carried unanimously.

On the motion of Mr. HUMPHREYS, seconded by Mr. F. M. ELLIS, the following gentlemen were re-elected to the Board of Directors:—Messrs. J. Scott, Harston, W. L. Pattenden, the Rev. Father Robert, Mr. A. O. Lang and Mr. J. M. Alves.

Messrs. Percy Smith and C. Bernard Brown were re-elected auditors, on the proposition of Mr. FERNANDEZ, seconded by Mr. S. NORTHCOCK.

This concluded the business before the meeting.

## MERCHANT SHIPPING. LEGISLATION IN THE MALAY STATES.

In the Federal Council at Kuala Lumpur recently the Legal Adviser moved the first reading of an Enactment to consolidate and amend the law relating to Merchant Shipping. The Bill he said was desired by the Commissioner of Trade and Customs. Its "Objects and Reasons" were as follows:—

This Bill consolidates and amends the law relating to harbours and small shipping. The Harbours Enactments of the four States are re-enacted as a Federal Enactment, the only material change being the omission of the sections dealing with Port Clearances. These are to be issued, in accordance with the usual practice, by the Customs Authorities, and provision has been made for this in the new draft Customs Bill. The provisions of the Lights and Small Shipping Enactment relating to registration of boats have been re-enacted and incorporated as clauses 40 to 51 of the bill, while the provisions relating to the imposition of light tolls have been repealed and not re-enacted. The model for the Bill as it stands has been Part XI of the Colonial Merchant Shipping Ordinance, 1910.

Mr. Rich said that after reading the draft Bill he felt himself strengthened in the belief that he was fortunate in not being a ship owner. He came to that conclusion after reading section 39 of the Bill and then section 9. The former section stated:—

In the event of the fire breaking out on board any vessel in any port, the Harbour Master may proceed on board such vessel with such assistants and persons as to him may seem fit, and may give such orders as may seem to him necessary for scuttling such vessel or for removing such vessel, or any other vessel, to such place as may to him seem proper to prevent in either case danger, to other vessels; and if such orders are not forthwith carried out by the master of such vessel, the Harbour Master may himself proceed to carry them into effect.

Section 9 was:—

The Government shall not be responsible for any act or default of any Harbour Master of any port subject to this Enactment or of his deputy.

It seemed to him that a Harbour Master may do anything. He was given "extraordinary powers" but Government was "not liable for anything he might do."

The Chief Secretary said the matter might be discussed in Committee. It was probably intended to prevent people claiming compensation for a ship which was burning out.

The Bill was read a first time and left over for further consideration.

## STOP THIEF !!

### The "ALARM"

Burglar-Proof Cash Box, Jewel Casket, Deed Box or Safe

The "ALARM" CASHBOX is made of solid steel and is fitted with an electrical device which renders theft impossible. Once the "ALARM" is set it is impossible for anyone to move it without starting the alarm. This alarm is a loud sounding rattle, which will proceed for nine hours, unless stopped by some one who has the key of the box and knows the secret of the device.

There are many other uses for the "ALARM." It may be placed on top of confidential papers which you have to leave on the desk for a short while in your absence. It will guard them efficiently. It will be impossible to remove a paper from underneath the "ALARM" without starting the alarm off. Papers and valuables guarded by the "ALARM" are as safe as if under your own eye.

Place the "ALARM" BOX behind your Bedroom Door at night. The presence of any intruder will be promptly notified.

## THE PREVENTION OF PIRACY

The findings and recommendations of the Commission appointed to inquire whether the existing precautions against piracy on ships in local waters are adequate and efficient, in view of the piracy on the steamer *Sui An* six or seven weeks ago, are such as the evidence given at the inquiry very clearly suggested. In the opinion of the members of the Commission the complete success of the piratical attack on the *Sui An* was due to the fact that the Piracy Regulations generally were not carried out as a routine on this ship; the officers carried no arms on duty; the guards were improperly armed and badly placed to defence. If that can be said of the steamer *Sui An* it is highly probable that it is more or less true in regard to every steamer to which the Piracy Regulations apply. "There seems to have been no anticipation whatever of an attack," the Commissioners say in their Report. There is nothing to excite wonder in this. The *Sui An* was about the very last steamer on which a piratical attack might have been expected, especially on a Sunday in the month of November, when it could confidently be anticipated that a large number of European passengers would be making the excursion to Macao on the ship. Never before had the least indication been given of any delay or intention to make a piratical attack on the ship, and in the circumstances it is scarcely to be wondered at that the routine would become somewhat relaxed, that officers,

whose duty under the Regulations was to keep themselves armed for emergencies, should have come to regard such a regulation as unnecessary, seeing that year in and year out for all the time, the Piracy Regulations have been in force an occasion had never risen on the ship to suggest the need of eternal vigilance while the vessel was on a voyage. The findings of the Commission are a plain intimation to all shipmasters in local waters that while the existing Piracy Regulations remain in force they should be strictly observed. In the opinion of the members of the Commission, had these Regulations been carried out they would have been effectual to the extent of making it unlikely that such a piratical attack as that which took place on the *Sui An* would have been attempted. Nevertheless, the Commission suggests that these Regulations are not as effective as could be wished and should be repealed and others substituted embodying new general principles for the defence of a ship. The general principles are indicated in the recommendations made by the Commission. Their main feature is to create what is called "a citadel of defence," in other words to concentrate on measures of actual defence of vital parts of the ship, such as the navigating bridge and engine room. No doubt the views of steamship owners will be invited by the Government on these suggestions before they are promulgated as regulations by the Governor in Council. That the Commission should have found it necessary to make recommendations of this character, telling the world at large that no one can travel with any sense of security in the neighbouring waters except on steamers which are made virtually ships of war on which eternal vigilance needs to be kept, conveys for the Chinese Government a lesson of its own. We consider the Commission fully justified in expressing the view that "Whatever measures are adopted to prevent piracy their success will be only partial until public order is firmly established in the neighbouring Chinese territories." Unfortunately the prospect of that being done is, we fear, remote. The extent to which the population of the province of Kwangtung is now armed has made the firm establishment of order in the province a matter of the gravest difficulty, and in the circumstances there is far more reason to expect piracy and brigandage to increase than to diminish. We trust that the enlightened Chinese at Canton will see in these recommendations of the Commission an indictment such as cannot nowadays be brought against any other Government in the world. Nowhere else but in the waters in the vicinity of Canton have trading vessels and excursion steamers to be converted into warships with riflemen constantly at their stations, in order that the lives and property of passengers may be safeguarded from piratical attacks. The sooner the Government at Canton seriously considers this aspect of trading and travelling in its territorial waters, and makes a serious and persistent effort to re-establish conditions which will justify a relaxation of piracy regulations, so much the better will it be for the credit of China in the eyes of the world. We ought not to end these remarks without a reference to the fact that, although the gang of some sixty persons who pirated the *Sui An*, landed in territory under the jurisdiction of the Canton Government, and it has been reported in the Chinese newspapers that loot from the steamer was exposed for sale in the markets of certain towns and villages, not a single member of the gang has been brought to justice. That piracy and brigandage are so rife can, in the circumstances, scarcely excite surprise.

Mr. S. T. Butlin has been gazetted as a qualified auditor under the Companies Ordinances.

The names of Dr. Chik Hing-man and Dr. Shih Kwai-shing have been added to the list of medical practitioners in the Colony.

Mr. G. B. Tweenlow has been appointed to control and administer the forests of the Colony, vice Mr. B. E. G. Spinks, resigned.

Mr. R. W. D. Barney, M.A., of the University, will give a lecture at the Helen May Institute to-day, at 5.30 p.m., on "Bees and Wasps: their habits and histories." All who are interested in the subject are cordially invited to attend.

—ADVT.

Shanghai has prohibited the importation of subsidiary silver coins (90-cent pieces) of the new mould issued by the Province of Kwangtung.

Intending exhibitors at the Hongkong Horticultural Society's annual show are reminded by an advertisement to-day that entries close on Wednesday.

One of the Chinese women-passengers of the *S.S. Pathoi*, from Saigon, was found to be missing on February 6th. It is believed she was lost overboard.

The members of the J. C. Williamson Opera Company, numbering 57 came up from Singapore on the P. & O. steamer *Kashmir*, which arrived on Saturday evening.

Dr. G. M. Harston, Mr. and Mrs. A. M. Bowes-Smith, Dr. E. E. Earle, Mr. T. W. Hill and Mr. and Mrs. W. Dunbar were among the passengers who left by the *Empress of Canada* on Saturday.

The master of the *S.S. Kashmir* reports that Warrant Shipwright W. H. Mills, R.N., who was on his way to join H.M.S. *Heathcote*, jumped overboard whilst the vessel was in the Red Sea and was drowned.

The Philharmonic Society has now decided to give only one concert which will take place on Tuesday, the 27th February at the Theatre Royal, City Hall. Admission will be circle and stalls \$2 Pit \$1.—(ADVT.)

The attention of members of the Royal Hongkong Golf Club is drawn to an announcement among to-day's advertisements relating to a proposal to entertain the members of the Shanghai interport team to dinner.

Mr. W. Meyrick Hewlett, C.M.G., for the past six years H.B.M.'s Consul-General at Cheongtu, Szechuen, is passing through Hongkong in *S. S. Teiresias*, on his way home on leave and is staying with Mr. Thorne.

The pulpit at Union Church was occupied yesterday, as announced, in the morning by the Rev. Duncan C. Macgregor, D.D., of Wimbeldon, Surrey, and in the evening by the Rev. P. J. MacLagan, Phil. D. In spite of the temporary suspension of the Peak Trams there were good attendances at both services.

Captain E. R. G. R. Evans, C.B., D.S.O., took up the new command on January 8th, of Captain of the *Patrol*, Minesweeping, and Fishery Protection Flotilla, in succession to Captain H. E. F. Aymer. The office of the Captain (A.P.), as he is known, is at present in Portland Dockyard, while his usual ship, the *Harcourt*, is employed in North Russian waters. Captain Evans last commanded the light cruiser *Carlisle*, in China. In his new command he will have under his orders the sloop *Harcourt*, *Godette*, and *Lupin*, seven twin-screw minesweepers, ten trawlers, and about forty minesweepers laid up in the Central Reserve at Sheerness.

## FAR EASTERN CABLE NEWS.

[THROUGH REUTER'S AGENCY.]

## RUHR RELIEF.

## SHANGHAI GERMAN RESIDENTS RAISE FUND.

SHANGHAI, February 10th. The German Consul-General, interviewed by the *China Press*, stated that German residents in Shanghai had voluntarily decided to raise a Ruhr relief fund, and the first instalment of 70,000 gold marks had been forwarded last week.

## SINO-RUSSIAN QUESTIONS.

## REPORTED APPOINTMENT OF CHINESE ENVOY TO MOSCOW.

The vernacular newspapers state that Chang Shou Tseng (Premier) has definitely decided to send Kiang Fu to Moscow as Chinese Envoy, in order to discuss and if possible, to settle the outstanding Sino-Russian questions. Up to the present the report is unconfirmed.

## LEGALISATION OF OPIUM TRAFFIC.

## LICENSING OPPOSED.

SHANGHAI, February 8th. The Shanghai Branch of the International Anti-Opium Association at a meeting declared its "opposition to the policy of monopoly in opium and licensing thereof, suggested by Sir F. A. Aglen."

## CABLES.

## LATEST CABLES.

(THROUGH BUTTER'S AGENCY.)

## THE FRENCH TASK IN THE RUHR.

## FRANCE PREPARES FOR GENERAL RAILWAY STRIKE

London, February 10th.—In the event of a general strike on the German railways the French Government has requested facilities of passage for coal trains, through the British zone. It is understood that French has suggested the temporary transfer, to French control, of a small portion of the British zone. The British Government has referred the matter to the Military Authorities at Cologne.

## FURTHER EXTENSION OF OCCUPIED AREA.

Dusseldorf, February 10th.

The French advance between the British zone and Elberfeld, has extended in the direction of Radvormwald. The French deny that they intended to occupy Elberfeld.

## EXTENSION ACCOMPANIED BY "CREEPING PARALYSIS"

London, February 10th.

The extension of the French occupation of Germany is described by messages from Essen as accompanied by a sort of creeping paralysis. The staffs are ceasing work when the stations are occupied.

The West Ruhr is still closed to passenger traffic, and the East Ruhr is sending a reduced service of slow trains to the east. Two trains are going to Berlin daily, instead of eight. The production of the mines is at the lowest, and is confined to the supply of local iron and steel industries. The threat by the French to place an embargo on these deliveries will merely mean increasing the amount of coal dumped at the pit heads, which is already embarrassing the French. In one case, at Recklinghausen, the coal has been thrown into a marsh.

## FRENCH TIRING OF "CONCILIATORY METHODS"

Paris, February 10th.

While criticism of the Government's failure to secure reparations from the Ruhr is increasing, it is mostly confined to the extreme left, and there are no signs of general impatience, even in the face of the paralysis of communications by rail and water owing to strikes and sabotage in the Ruhr area, and the closing of the Lorraine ironworks through lack of fuel, which was formerly received from the Ruhr. The public recalls Premier Poincaré's insistence, at the outset, that the task would be protracted. It is evident, however, that in face of German obstruction, the French are tiring of conciliatory methods, and have decided to adopt the harsher measures which the Belgians in the first place advocated.

Conferences of French and Belgian Ministers discussed, yesterday and today, the establishment of a more rigorous organisation in the Ruhr area, with a view to diverting products to France and Belgium.

## FRENCH PROHIBITION AGAINST GERMAN MINISTERS.

Paris, February 10th.

At a conference between Premier Poincaré and the Belgian Minister of Foreign Affairs, M. Jaspar, it was decided to prohibit German Ministers, Imperial or State, from entering the Ruhr. This action was taken in view of the unrest caused by Chancellor Cuno's recent visit.

## EARLIER CABLES.

## MINERS DECLARE GENERAL STRIKE.

Paris, February 9th.

A message from Metz states that owing to the failure of the negotiations to increase their wages, the Moselle miners have declared a general strike, but seven thousand remain to work the pumps. French troops as a precaution have occupied the mines of the Sarre, where the miners have also struck. The Sarre railwaymen are also threatening to strike for an increase of wages.

(Continued at foot of next column.)

## LATEST CABLES.

## THE CIVIL WAR IN IRELAND.

## IRISH REBELS WILL CONTINUE "WAR OF INDEPENDENCE."

Dublin, February 10th.

"War will go on until the country's independence has been recognised by our enemies, both foreign and domestic," declares a proclamation, issued by Liam Lynch, Irregular Chief of Staff, who addressed the Republican forces. The proclamation says: "There can be no compromise on this fundamental condition," and appeals to the men not to be deluded into surrendering their strong position, so dearly won. It says that victory is within their grasp if they stand unitedly and firmly, and urges a continuance of activities.

Three armed men, practically simultaneously with the issue of the proclamation, blew up by land mines the printing works at Dublin from whence the new amnesty offer yesterday emerged, doing thousands of pounds' worth of damage.

## EARLIER CABLES.

## REPUBLICAN'S REJECT DEASY'S APPEAL.

London, February 9th.

Liam Lynch, the chief of staff of the Republican army, replying on behalf of his "Government and Army Council" says Liam Deasy's proposal cannot be considered.

London, February 9th.

The Free State Ministers O'Grave, Hogan (Minister of Agriculture) and Kennedy (Legal Adviser) have arrived in London. They interviewed the Duke of Devonshire in the Colonial Office and conferred for an hour with the Premier at Downing Street, it is understood with regard to Anglo-Irish financial relations.

Dublin, February 9th.

It is declared in republican quarters that all the republican leaders have supported Lynch's rejection of Deasy's appeal, and there can never be peace until De Valera be approached as "President of the Republic," nevertheless, it is believed here that the offered amnesty will result in considerably thinning the ranks of the irregulars. The farmers' deputy in a speech in the Dail declared that any number of irregulars would leave the ranks to-morrow morning, but for the threat of death held over them.

Brussels, February 9th.

As a result of the exploitation of the State forests in the Belgian occupation zone in Germany, large sales of timber have been held.

## SYNTHETIC AMMONIA CONTRACT.

Brussels, February 9th.

Following a conference of French and Belgian Ministers it was announced that complete agreement has been reached regarding traffic in the occupied territory and an arrangement had been made to meet systematic German disorganisation of the canals and waterways.

Paris, February 9th.

The French Chamber's passing the second reading of the Bill authorising the convention with the Badische Anilin Company, whereby a concession has been granted for the manufacture of synthetic ammonia at Toulouse, has aroused a storm of controversy in Germany. The non-capitalist papers are especially severe in denouncing "the treacherous contract" whereby the directors of the company have betrayed their country to a hereditary enemy for money. Bitterness has been introduced into the discussion by the allegation that the French in 1919 hinted at a forcible wresting of the secret if it were not conceded otherwise. M. Loucheur, supporting the Bill in the Chamber, recalled the acute shortage of nitrates in wartime, almost preventing a continuance of the war, after which France determined to procure the only known process of transformation of nitric acid.

## LATEST CABLES.

## MEMEL INSURRECTION.

## NEW PROVISIONAL GOVERNMENT FORMED.

London, February 10th.

The settlement of the Memel incident is foreshadowed by Paris advices from Kovno, stating that the insurgents have retired to Lithuania. A Provisional Government has been formed at Memel, composed of men who are not connected with the rising.

The Assembly has passed a resolution legalising the emigration of unskilled labour to Ceylon and the Malay States.

[A cable message dated Paris, January 31st stated:—"The conference of ambassadors has decided to send a Note, which, it is understood, amounts to an ultimatum, requesting Lithuania to restore a normal situation at Memel. It demands the withdrawal of Lithuanian troops and armed bands, the dissolution of the Provisional Government and the re-establishment of inter-Allied authority. It is understood that the Note threatens forcible action." A further cable dated February 9th stated:—"In reply to the Allied Ultimatum, mentioned in a message dated January 31st, the Lithuanian Government denies that it provoked the Memel rising, which, it says, was partly due to the delay in the solution of the question. The Government expresses a desire for the speediest re-establishment of Allied authority, and has ordered all volunteers to return to their homes.]

## COTTON PRODUCTION.

## EMPIRE OUTPUT MAY BE QUADRUPLED.

London, February 10th.

Speaking at Oldham, Sir W. Joynson-Hicks (Parliamentary Secretary of the Overseas Trade Department) dwelt on the need for reducing the cost of production in order to regain the cotton export trade in the East. He said that he saw no reason why Empire cotton production should not be quadrupled within five years.

## FRANCE AND RUSSIA.

## FRENCH GOVERNMENT PROPOSES CONFERENCE.

Paris, February 10th.

The newspapers state that the Government propose to send a representative to confer with the Soviet Authorities.

## THE CAIRO OUTRAGE.

## HEAVY FINE IMPOSED ON DISTRICT.

Cairo, February 10th.

Field-Marshal Allenby has imposed a fine of £600 upon the district where Mr. Ambler was fired on last Wednesday.

A cable message dated February 7th stated: Two shots were fired this morning at Mr. Ambler, an English railway employee. He was not hit, but a native workman was wounded. The assailant escaped. Owing to this attempt to murder Mr. Ambler, the authorities have appointed a military governor in Cairo to take measures to deal with such crimes, and a military cordon has been placed round the area where the attempt was made. Nobody is now allowed to leave without a permit, and anyone attempting to do so will be heavily fined.

## ARMAMENT LIMITATION.

## PROPOSED ACTION BY LEAGUE OF NATIONS.

Geneva, February 10th.

The commission on the limitation of armaments, after hearing Lord Robert Cecil's outline of a suggested mutual guarantee treaty, decided to recommend the Council of the League of Nations to invite the United States to submit concrete proposals, with a view to its co-operation in controlling the traffic and manufacture of arms.

## A RECORD PROFIT.

## IMPERIAL TOBACCO COMPANY'S DIVIDEND BONUS.

London, February 10th.

The Imperial Tobacco Company report a record profit of £7,190,076. A dividend bonus has been declared of 2½ per cent. tax free. £225,000 has been transferred to reserves, which now exceed £19,000,000.

## PROHIBITION CONVICTIONS.

## ACCUSED "CATTERING FOR LEADING METROPOLITAN CLUBS."

New York, February 10th.

On account of the social standing of the accused, widespread interest is centred in the trial of the international polo player Rene La Montagne, and his three brothers who were charged with conspiring to violate the prohibition law. The prosecution alleged that Rene La Montagne was the president of a wholesale liquor business catering for leading clubs in the Metropolis. All accused were sentenced to four months' imprisonment and fined \$3,000 except one, who was sentenced to two months' imprisonment.

## EXCHANGE MARKET.

London, February 10th.

French francs closed at 75.50, Belgian at 85.80 and lire 96½. Marks were 140,000 to 145,000 and sterling 4.68½.

## THE WORLD OF SPORT.

## THE DECIDING TEST MATCH.

Johannesburg, February 9th.

Each side having a win and a draw to its credit, the fourth Test match was regarded as the decisive battle for cricket supremacy, and excited intense interest, 7,000 persons attending. The weather was fine, and the wicket perfect.

England scored 244 and South Africa with ten minutes' batting compiled 8 runs without losing a wicket. England had a feeble start, with 35 and three wickets down, but after that Carr (83) and Mead (38) in a sturdy partnership yielded 73. Carr and Fender (44) further advanced the total to 177 for 5. Mann (34) and Kennedy (18) put the finishing touches. The South African bowlers throughout were very clever. Hall took 6 for 88 and Blaauwberg 4 for 48.

## GOOD SCORE BY COLONIALS.

Johannesburg, February 10th.

The fourth Test match was continued in fine weather. The attendance, for this Wanderers' ground, was a record, numbering nearly 20,000. South Africa opened on a good wicket, making 28. Ward by excellent cricket made 64 in 150 minutes. Nourse, in an innings lasting 88 minutes made 51, his score including 9 fours. L. E. Tapscott compiled a vigorous 50 unfinished. M.O.C. have scored 8 runs without the loss of a wicket.

## NEW ZEALAND MATCH.

Napier N.Z., February 10th.

The match M.C.O. v. East Coast Minor Associations resulted in a draw.

## TENNIS.

## COVERED COURTS CHAMPIONSHIPS.

Barcelona, February 10th.

In the final of the Men's Singles of the World's Covered Courts Championships, Cochet (France) beat Gilbert (England) 6-4, 7-5, 6-4, thus retaining the championship. In the final of the Ladies' Doubles Championships, McKane and Beamish (England) beat Golding and Vassard (France) 6-1, 6-1.

## INTERNATIONAL RUGGER.

England defeat Ireland.

Leicester, February 10th.

The weather was fine and 20,000 spectators assembled to witness the Rugby match Ireland v. England. The play was good. England defeated Ireland by 25 to 3.

## SOCCER.

## SELLING RUSSIAN REGALIA.

## TREASURES ON THE CHINESE MARKET.

(FROM "THE TIMES" RIGA CORRESPONDENT.)

The Bolsheviks are continuing to sell or melt down articles of the old Russian regalia. There is some opposition to this even among members of the Communist Party, and their recent decision to dispose of the platinum all (measure) of Peter the Great, hitherto preserved in the great armoury, has called forth much heated argument.

The Kharbin newspapers report that quantities of Church treasure taken from the Moscow cathedrals are being taken through Kharbin to be realized in China. Among the many articles which are being offered for sale there is the mitre of Philaret (a Russian prelate, 1788-1867), which had been preserved among the patriarchal vestments in Moscow.

This mitre is of embossed gold and weighs several pounds. Its edges are studded with opals between tiny icons, which are surrounded with large-sized rubies and emeralds. In the centre of the cross there is a diamond weighing 14 carats, and there are many other diamonds of smaller size. Besides its intrinsic value, the mitre is one of the best examples of old workmanship. The fine embossing and enamel ornamentation, as well as the artistic designs, make this mitre a distinctive item among the many patriarchal treasures which are now on the Chinese market.

The mitre was taken into China over the Manchurian frontier, and is said to be intact.

## AMERICA'S FOREIGN TRADE.

## DECLINE IN EXPORTS: HEAVY INCREASE IN IMPORTS.

Mr. James S. Alexander, President of the National Bank of Commerce in New York, addressing the annual meeting of shareholders on January 8th made the following reference to the foreign trade of the United States in the year 1922:—

Apparently the total value of exports for 1922 will fall nearly one billion dollars short of exports for the previous year. Somewhat less than half of the total decline was accounted for by reduced exports of raw and manufactured foodstuffs. The more important items show declines in quantities as well as in value. Exports of cotton were less in quantity but values were increased by higher prices. Exported manufactured goods declined heavily in value but this was due to some extent to lower prices. The value of crude materials for manufactures, exclusive of cotton, was considerably less, but lower prices were a large factor. The heavy reduction in the value of exports occurred almost exclusively in trade with Europe and Canada. Exports to Europe in 1922 were only four-fifths as great in value as in 1921 and export to Canada declined nearly one-third.

On the basis of figures for the first eight months of 1922, import values for the year will apparently be increased about \$400,000,000. Popular discussions show a singular misapprehension respecting this increase. Nearly nine-tenths of the entire gain is accounted for by crude materials, for manufactures and semi-manufactures. Increased imports of hides and skins, raw rubber and silk, and pig tin accounted for \$100,000,000. Other imports showing gains were chemicals and drugs, refined copper, foreign cottons, fertilizer materials and other imports for productive purposes. Gains in imports of these classes directly reflect improved business in the United States.

## "PORT YOUR HELM."

## ORIGIN OF THE WORD "PORT."

Mr. T. W. Moore, Secretary of the Imperial Merchant Service Guild, has sent to a correspondent in Singapore, copies of the following interesting letters on the above subject received from Captain Warren F. Caborne, C.B., R.N.R., one of the greatest authorities on seafaring in this country. He acts as a nautical assessor in the High Courts of Justice and is a very prominent member of the Royal United Institution, Loppington Hall, Mr. Wm., Salop. November 12th, 1922.

DEAR MR. MOORE,—In reply to your letter of the 9th instant, it is undoubtedly a fact that the word "Port" was introduced owing to the previous orders "Larboard" and "Starboard" being frequently mistaken one for the other.

I think the order "Port" was introduced some sixty years ago—at any rate it was comparatively speaking, recent when I first went to sea fifty-seven years ago, as were then the coloured side-lights.

I am under the impression that I have somewhere seen the reason for the selection of the word "Port" to supersede "Larboard" and the origin of the word in this connection, but I can neither recall to mind the authority nor the explanation given, and I have searched such books as I possess without success.

I have written to the Librarian of the R.U.S.I. I may mention that I usually carry out the research work of a nautical character there, and that subjects are frequently reserved against my visits to London, and, if he cannot ascertain what we want, I will see what I can do when I next go to town, but that will not be for some time to come, as I was there last month and travelling expenses are almost prohibitive.

Trusting that things are prospering with you and with kind regards, Yours very truly, W. F. CABORNE.

November 17th, 1922.

DEAR MR. MOORE,—With reference to your letter of the 9th instant and mine of the following day, re the origin of the word "Port" as used in helm orders on board ship, I have now received from Major Parkyn, the Librarian of the Royal United Service Institution, the following items:—

The *Encyclopaedia Britannica* states:—"Owing to the similarity in sound between starboard and larboard, the word 'port' is now used for the left side. The substitution of this for the older term was officially ordered in the British Navy by an Admiralty order of 1844, and in the United States of America by a Navy Department Notice in 1896."

Also, "The use of port in this sense is much older, it occurs in Mainwaring's *Seamen's Dictionary 1622-1644* (not in R. U. S. I. Library). In this usage port may mean either 'harbour' (Lat. portus), the ship lying with her left side against the port or quay for unloading or 'opening' 'entrance' (Lat. porta, gate), for the cargo to be taken on board if 'portable'."

Notes and queries give: "Starboard, Larboard, Port."

"G. A. L. who enquires about the derivation of these nautical terms will recollect that the Venetians and Genoese were amongst the earliest European navigators, and formed during the Middle Ages, and even later, the most powerful Maritime States. It is, therefore, extremely probable that the Italian language is that in which we are to look for the origin of most of our nautical terms of old standing. I have long supposed that the terms Starboard, Larboard and Port had an Italian origin."

"Thus we have 'questo bordo' this side of the vessel or the side on which the helmsman stood; 'quello bordo' that side, or the one opposite to him; bordo being 'botta, quella parte del Vascello, che da fianchi sta fuor dell'acqua.' These terms would naturally come to be abbreviated to 'sta bordo', 'lo bordo'."

"Then again the Master, when directing the helmsman to put the tiller over to the larboard side of the vessel, or that opposite to him, would naturally indicate it by the word 'portare', to carry or push; 'porto il timone', port your helm, as distinguished from 'tirare' to pull."

In process of time, in order to obviate the risk of confusion between the sounds of 'sto bordo', 'lo bordo', 'Starboard', 'Larboard', 'board', inasmuch as porting the helm always indicated the larboard side of the vessel, the word 'Port' came to express it altogether—E.C.K."

Captain Caborne writes:—Whether or not the foregoing is the actual explanation of the origin of the term "Port," it seems to me to be a very interesting one.

## "BRITAIN IS A CORPSE."

## SECRET TELEGRAM FROM VENIZELOS.

I learn from a private source in Athens wrote the *Daily Express* Correspondent at Rome, on December 13th, that a sensational secret telegram from M. Venizelos was received by the members of the revolutionary committee after the revolution.

M. Venizelos telegraphed that he considered Great Britain a "corpse," using the word "cadavre." He meant, of course, that Britain was no longer of any use to the Greek cause. He added that Greece must now turn definitely towards France.

In order to prevent the telegram being seen by any one outside the inner circle of the Revolutionaries, the number of copies made was strictly limited to twelve.

## CABLES.

(Continued from page 7).

### LATEST CABLES.

[THROUGH REUTER'S AGENCY.]

### DEBT FUNDING BILL.

SENATE FINANCE COMMITTEE  
ORDERS FAVOURABLE REPORT.

WASHINGTON, February 10th.

The Senate Finance Committee has ordered the Debt Funding Bill to be favourably reported, with minor amendments.

LATER.

The voting on the debt agreement was 291 in favour, 44 against. The Bill now goes to the Senate.

### EARLIER CABLES.

RATIFIED BY U.S. REPRESENTATIVES.

WASHINGTON, February 9th.

The House of Representatives has ratified the debt funding agreement with Britain almost unanimously. The Democratic leader, Mr. Garrett, declared he would support the measure because it made for stabilisation of the world.

### THE SMYRNA INCIDENT.

TURKS "EXPLAIN" THE NOTE.

CONSTANTINOPLE, February 9th.

All the newspapers are most apprehensive with regard to events at Smyrna. Authoritative Turkish quarters now declare the note with regard to Allied warships was in no wise an ultimatum, but simply a circular informing all the States, including neutrals, of the decision of the Turkish general staff to forbid vessels of over thousand tons to be stationed in Smyrna harbour, in accordance with the Turkish maritime regulations.

LONDON, February 9th.

A Constantinople telegram states that an agreement has been reached between the Smyrna authorities and the Allied naval commanders of the warships in port, sanctioning the status quo for the fleets until matters are diplomatically arranged.

### THE NEW FRENCH BUDGET.

DEFICIT OF 31 MILLIARDS

PARIS, February 9th.

In order to meet a Budget deficit of 31 milliards of francs, the Finance Minister, M. Delastegrie, intends to modify the proposal to increase taxation by twenty per cent. The twenty per cent. increase will apply only in the case of certain direct taxes. There will be a general increase of ten per cent. from which the Customs dues, business turnover, luxuries and salaries will be exempt. It is estimated that this will produce 1,500 millions of francs. Half a milliard each will be secured from the surplus revenue on income tax and payments to the State by the railways. It is hoped to obtain the remaining milliard by measures preventing evasion of income tax and by economies.

### MINE ACCIDENT IN BRITISH COLUMBIA.

CHINESE MINERS' WONDERFUL ESCAPE.

VICTORIA, February 10th.

Twenty-nine bodies have been removed but ten are still in the mine. Six miners have been seriously injured. The dead include twenty whites; the remainder being Chinese one of whom walked two miles through smoke-filled passages before reaching safety.

VICTORIA, B.C., February 9th.

Nineteen fatalities resulted from an explosion of fire damp in a mine near Cumberland.

### BECKETT V. DEMPSEY.

LONDON, February 9th.

It is announced that Beckett has signed articles to meet Dempsey for the world's heavyweight championship in July or August in New York. The match is conditional on Beckett beating Dick Smith at Holland Park Hall on February 18th.

### ABBOT ASSASSINATES ARCHBISHOP.

WARSAW, February 9th.

Abbot Latyszen has assassinated Archbishop Georges, the head of the Polish Orthodox Church. The assassin favoured dependence of the Church on the Moscow Patriarchate, while the Archbishop last year proclaimed its independence.

### AUSTRALIAN MINISTRY.

MELBOURNE, February 9th.

A Cabinet composed of Nationalists and Country Party has been formed, with Mr. Bruce as Prime Minister and Minister of External Affairs and Mr. Page as Treasurer.

### BOTH DOING WELL.

LONDON, February 9th.

Princess Mary and her son continue to progress satisfactorily. Further daily bulletins are to be issued.

### EGYPTIAN CABINET RESIGNS.

CAIRO, February 9th.

The King of Egypt has accepted the Cabinet's resignation.

## BRITISH INDUSTRIES FAIR.

LEAFIELD, February 8th.

The British Industries Fair, established by the Department of Overseas Trade with a view to encouraging British manufacturing firms to extend their exports, will be held from February 19th to March 2nd.

The Fair will be in two sections running concurrently in London and Birmingham, the former having light goods such as chemicals, fancy goods, stationery and pottery, which will be displayed at the White City, Shepherd's Bush.

The Birmingham section will show heavy commodities such as machinery, hardware, metals, furniture and industrial plant.

Admission to the Fair, which is by invitation of the Department of Overseas Trade, is restricted to bona-fide buyers for the home and overseas markets.

All the cost of construction and maintenance of the Fair will be borne by the exhibiting firms.

Judging by the number of applications received, very satisfactory business results are anticipated here.—British Official Wireless Press in Daily Bulletin.

### WAS IN THE EATIES

ROME, February 9th.

Italy has ratified the Disarmament Treaty.—United States Official Wireless Press, in the Daily Bulletin.

### ANTI-FASCISTI CONSPIRACY.

ROME, February 9th.

The police say that as a result of numerous arrests of agitators and Communists throughout Italy, they have discovered a vast conspiracy for the overthrow of the Fascist Government.—United States Official Wireless Press in the Daily Bulletin.

### MYSTERIES OF NATURE.

PHOTOGRAPHS OF FAIRIES.

A tendency to disbelieve in the reality of fairies showed itself in the questions asked at a meeting arranged by the Theosophical Fraternity in Education, at the Conference Educational Association at University College on December 28th. Mr. and Mrs. E. A. Gardner, however, who spoke on "Real Fairies and the Imagination," are profoundly convinced not only of the "objective existence of fairies," but of the genuineness of a number of photographs taken by two children near the Yorkshire village of Cottingley in 1917 and 1920. Slides made from the five photographs, showing the fairy figures playing round the children, were thrown on the screen, and Mr. Gardner declared that such exhaustive investigations had been made by himself and others that the possibility of "faked" negatives seemed to be eliminated entirely. He acknowledged, in answer to questions, that adults had not succeeded in obtaining photographs of the Cottingley fairies, although a "medium" had been able to see them. Mr. Gardner declared that the work of the fairies, or "nature spirits," as he preferred to call them, consisted of looking after grass and flowers, attending to the sap of trees at certain periods of the year, and seeing to the tree trunks themselves.
